EXPLANATORY MATERIAL: BASIS OF CLAIM - License

The Director retains jurisdiction to review and amend any and all parameters of this water right. Any person seeking review and amendment of the water right shall file a request with the Idaho Water Resource Board, which request shall include the amendment sought, the reasons for the amendment, and a statement of the change in circumstances since the water right was issued or last reviewed that merit a review of the water right. A copy of the petition shall be served upon the Director of the Department of Water Resources. The Idaho Water Resource Board may petition the Director for an amendment to the water right. The petition must set forth any significant change in circumstances and evidence of public interest supporting the proposed amendment. The Director will notify the general public and specific persons or parties known to be interested in the proposed change, and conduct a hearing for the purpose of determining whether the water right should be amended in the public interest. The burden of proof at the hearing shall be upon the person or party seeking the amendment to establish that amendment of the water right would be in the public interest.

Use of water under this right shall recognize and allow the continued beneficial diversion of water under any prior existing water right established by diversion and application to beneficial use or by an application, permit, or license on file issued by the Director under provisions of Chapter 2, Title 42 Idaho Code, with the priority date earlier than 9/13/1978.

Upon the future finding and order of the Director that gauging stations are required to maintain the approved minimum flow on Wolf Lodge Creek, the measuring devices shall be permanently installed as specified by the Department.

The Idaho Water Resource Board, upon receiving a request, or upon its own initiative, may petition the Director for an amendment to this water right. The petition must set forth any significant change in circumstances and evidence of the public interest supporting the proposed amendment. The Director will notify the general public and specific persons or notify interested parties of the proposed change, and conduct a hearing for the purpose of determining whether the water right should be amended in the public interest. The burden of proof at the hearing shall be upon the person or parties seeking the amendment to establish that the amendment of this water right would be in the public interest.

Upon further finding and order of the director that gaging stations are required to maintain the approved minimum flows under this right, such measuring devices shall be permanently installed and maintained as specified by the director.

MINIMUM STREAM FLOW	11/01 6/30	2,495.000 CFS
	7/01 10/31	951.000 CFS

This minimum stream flow is for the protection of fish and wildlife habitat, aquatic life and recreational values.

Use of water under this right shall be non-consumptive.

PLACE OF USE:

The reach of the Spokane River for which the minimum flows are established is as follows: Spokane River, commencing at a point downstream from the Post Falls Dam at which the overflow channels converge with the main channel below the dam in T50N, R05W, S04, SWNE, and extending downstream to the Idaho-Washington state line in T50N, R06W, S12, SWNW, Kootenai County, a reach of approximately five miles.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Minimum flows established for the Spokane River in this reach shall serve to protect water released from Post Falls Dam as it flows through this reach at rates up to the established minimum flow, but shall not directly or indirectly cause any change in operation of Post Falls Dam.

This minimum streamflow shall be subject to future municipal and domestic development from the Spokane River and its tributaries for the use in the basin within and upstream of the minimum streamflow reach. The minimum streamflow will not be subject to water rights established in the future for irrigation uses or other large consumptive purposes even though covered under a municipal or domestic use definition.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Upon further finding and order of the director that gaging stations are required to maintain the approved minimum flows under this right, such measuring devices shall be permanently installed and maintained as specified by the director.

The Idaho Water Resource Board, upon receiving a request, or upon its own initiative, may petition the Director for an amendment to this water right. The petition must set forth any significant change in circumstances and evidence of the public interest supporting the proposed amendment. The Director will notify the general public and specific persons or notify interested parties of the proposed change, and conduct a hearing for the purpose of determining whether the water right should be amended in the public interest. The burden of proof at the hearing shall be upon the person or parties seeking the amendment to establish that the amendment of this water right would be in the public interest.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This right is conditioned upon completion of the appropriation in accordance with the statutory procedure for appropriation of water rights. This right remains subject to all conditions set forth in the permit upon which this right is based, and will be subject to all conditions set forth in the license issued by IDWR upon completion of the statutory appropriation process.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Permit

EXPLANATORY MATERIAL: BASIS OF CLAIM - Permit

The diversion and use of water in this water right is subject to additional conditions and limitations agreed to by both Kootenai Environmental Alliance, and the water right holder under a separate agreement to which the Department is not a party and which is independently enforceable by a court of law.

After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

This water right is limited to 100 connections.

Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

Prior to or in connection with the proof of beneficial use statement to be submitted for municipal water use under this right, the right holder shall provide the department with documentation showing that the water supply system is being regulated by the Idaho Department of Environmental Quality as a public water supply and that it has been issued a public water supply number.
